The administration and faculty at Mansfield High School continually strive to improve the education provided to the students. With this in mind, your input and help is always welcomed.

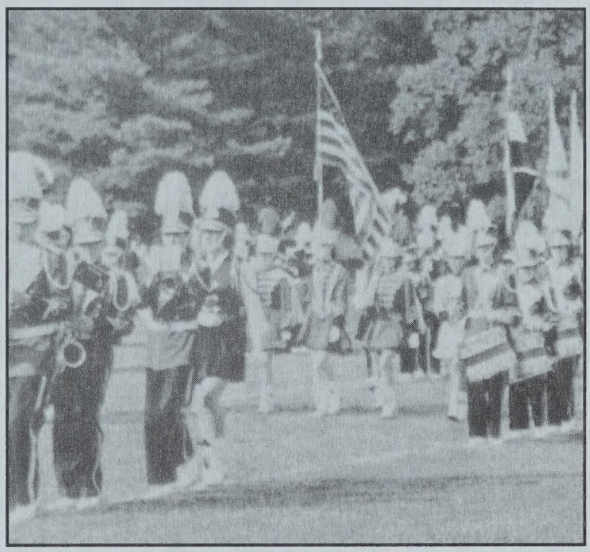
"School of Excellence"

Although recognized in 1990-91 by the United States Department of Education as a Blue Ribbon School of Excellence, Mansfield High School's rich history of excellence dates back many years. On the pages that follow is a collage of pictures depicting students engaged in the academic, athletic, and social environment of Mansfield High School.



A vital mission of Mansfield High School is to help all students appreciate their own uniqueness, to realize the scope of their aptitudes, and to discipline these abilities. Further, acknowledging that learning has both an intrinsic and pragmatic value, we encourage students not only to be curious about themselves, but also to be concerned for their world. We expect, therefore, our students to develop a sense of self-awareness, as well as to function with other members of society through the exercise of understanding, concern, and tolerance.

As an alumnus/a of Mansfield High School, we hope that the education you received enabled us to fulfill our mission and provided you with the necessary tools to be a productive member of society.
